CLAY BRICKS AND PAVERS

## Bricks

# Littlehampton Bricks

The Littlehampton Brick Company has been the leading South Australian brick maker for over 120 years.

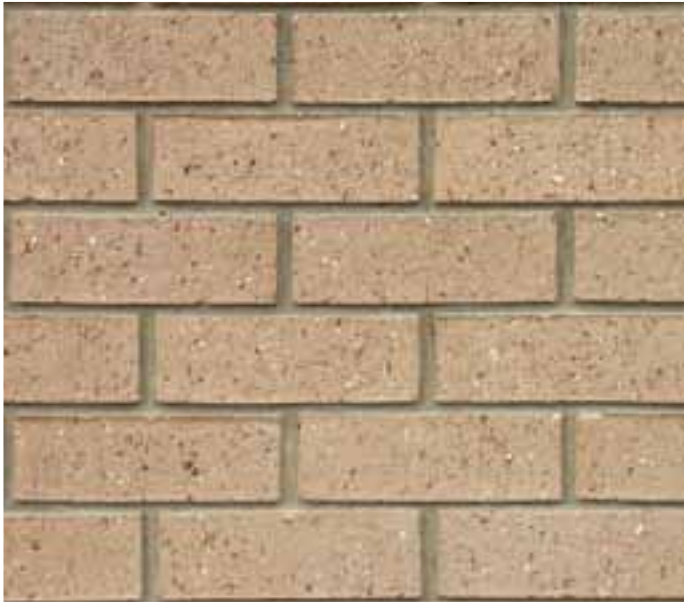

Builders and renovators recognise the quality and reliability that Littlehampton represents and the extensive range of colours and textures that only kiln fired clay can provide.

Following advice from leading architects and building designers, we continue to constantly innovate our range of products and take pride in our tradition and commitment to quality.

# Designer SERIES

Littlehampton's unique Designer Series of contemporary bricks provides a sharp new look used by today's leading architects and designers.

**ASH**  
Light contemporary look

**MOCHA**  
Light coffee blend

**TUSCANY**  
Light creamy texture

**IRONWOOD**  
Slightly glazed bold and striking

# Classic RANGE

Littlehampton's Classic Range has been South Australia's favourite choice for over 120 years and has been used in many of Adelaide's finest buildings.

The rich earthy tones add character and distinction to any project, regardless of design.

Add natural character

**COACHHOUSE**

A mix of greys, browns and blues in a tumbled appearance.

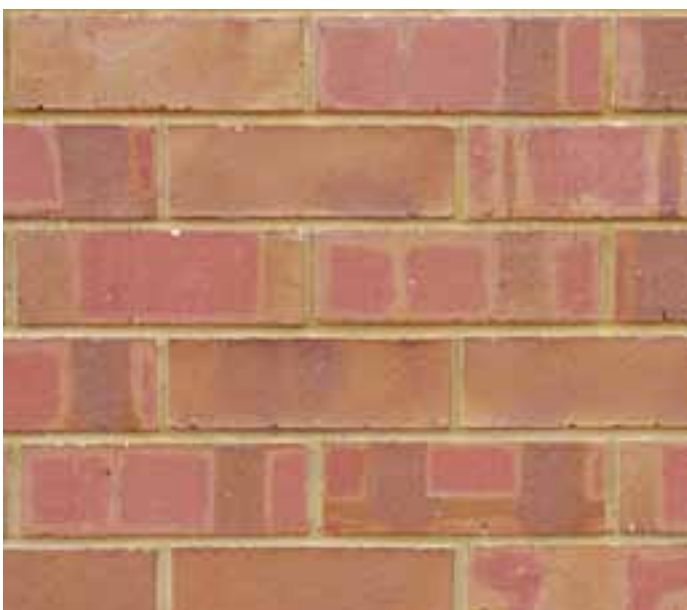

**COTTAGE BLUE**

A rich textured blend with natural firing flashes.

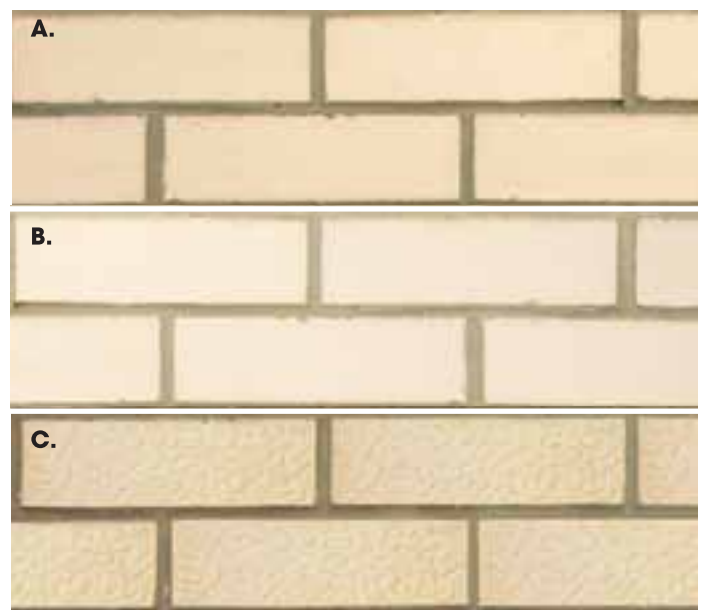

**SIENA**

A burnt textured terracotta blend.

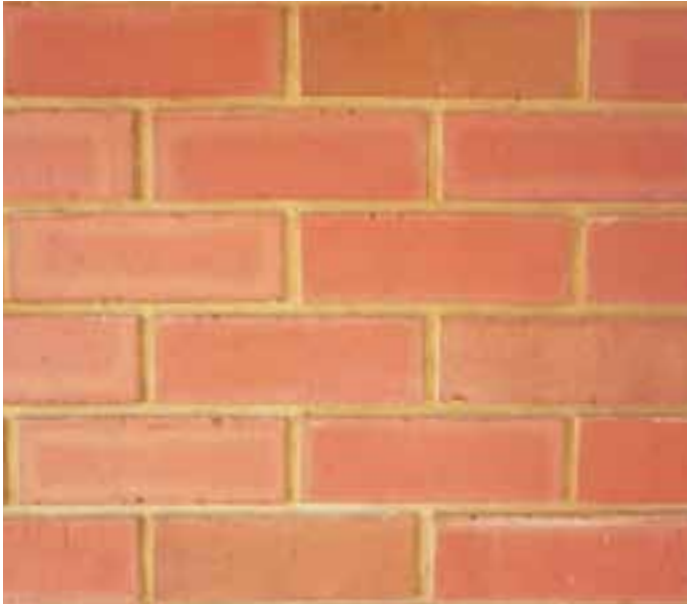

**CLINKER**

Mottled burnt red with fire flashes

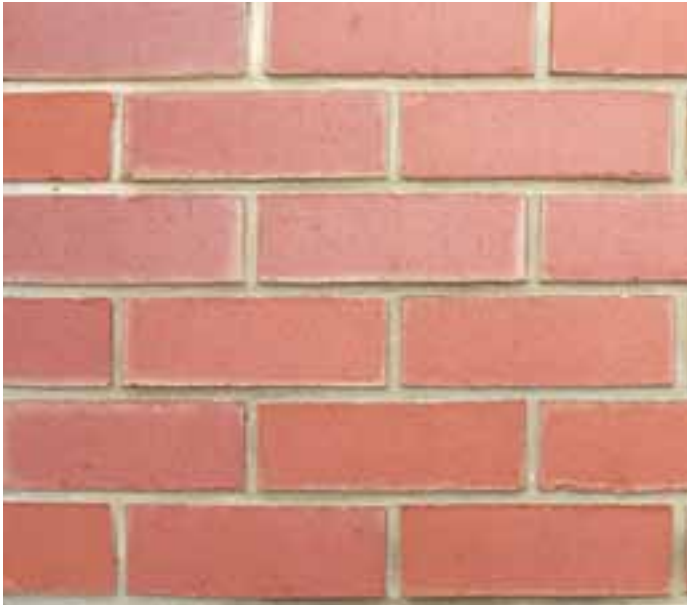

**CREAMS**

A. Cream B. Ivory C. Textured cream

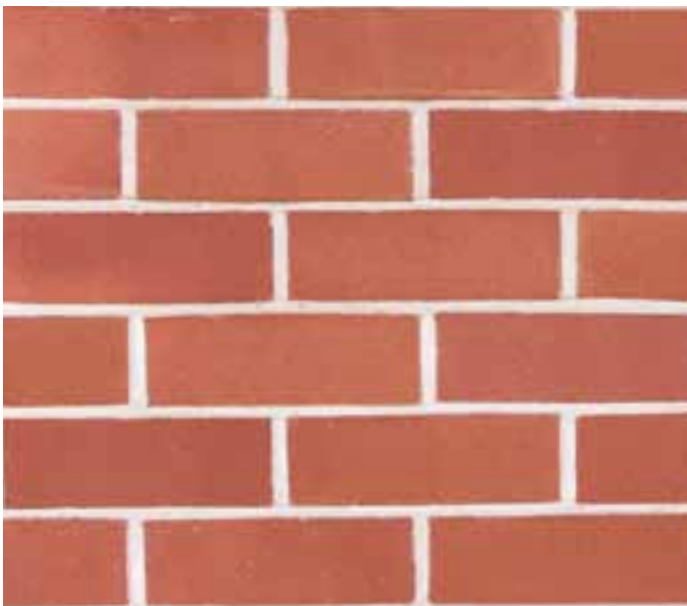

### SAPHIRE

Smooth red with fire flashes

### ADELAIDE RED

A smooth rich red.

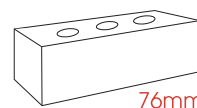

### OLD RED SANDSTOCK

A rich red sandstock texture.

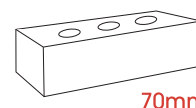

## Old Red Sandstock

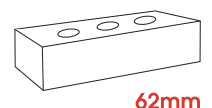

There's no need to compromise when renovating early architecture, as our Old Red Bricks are available in a range of gauges including traditional 76mm, 70mm and 62mm sizes, with an extensive range of special profile shapes to match or enhance any project.

76mm

70mm

62mm

### Free match up service

If you are planning to extend or renovate and wish to match existing bricks for an extension, renovation or repair job, we can help.

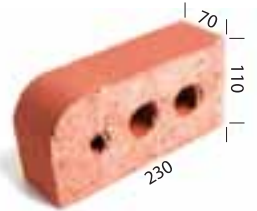

We have many years of experience and our sales team can visit you on site to provide a brick to match your project.

**Give us a call on 8391 1855 for further details.**

Handcrafted to perfection

# Fire Bricks

Littlehampton Bricks and Pavers have been making a range of fire bricks for many years. Whether you're building a wood oven for an outside entertaining area or renovating a fire place, we have three different gauges of fire bricks to suit your needs - 76mm, 50mm and 38mm. We also supply Fire Clay Additive for mixing with the mortar

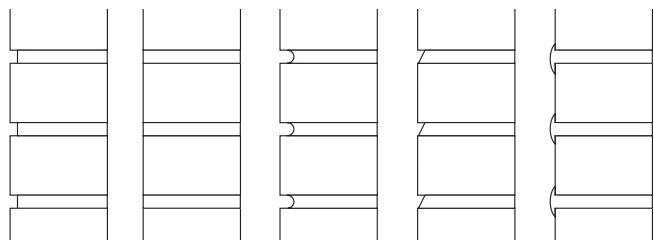

## Product Information

### Bricks specifications

Bricks per square metre - 76mm	50
Bricks per square metre - 70mm	55
Bricks per square metre - 62mm	61
Brick weight	approx 3.5 kg
Brick dimensions	230mm x 110mm
Bricks per pallet	500
Pallet weight	approx 1.7 ton

### Mortar joints

Make the true beauty of your clay bricks come to life with the right colour mortar and joint that suits your vision.

Raked

Flush

Rolled

Struck

Smudged

### Colour variation

All natural clay Bricks and Pavers are sold as a blend and due to the manufacturing process, some colour variation will occur. We recommend when laying clay bricks or pavers to work from three pallets at any one time, blending evenly to provide a mixture of colour.

### Cleaning information

It is characteristic of all light burning clays from which bricks are manufactured that they contain small quantities of natural salts called vanadium salts. These water soluble salts can leach to the surface of bricks and crystallise as moisture dries from the brickwork.

For further information on cleaning bricks, refer to the "DIY & Maintenance" section at [www.littlehamptonbrick.com.au](http://www.littlehamptonbrick.com.au) or to Think Brick Australia's "Brick Cleaning Manual" (downloadable at [www.thinkbrick.com.au](http://www.thinkbrick.com.au))
